HuskeeCups

- made from coffee husk and polypropylene
- re-purposes waste material
- keeps drinks hotter for longer
- durable and dishwasher safe
- universal lid and saucer
- stackable

The 95 million cups of coffee we enjoy daily means there is a lot of harmful waste; the grinds, the husks, the single use cups...

HuskeeCup uses the husk to create a stylish and highly eco friendly reusable cup - saving trees, water, energy and the planet.
